

Beam Global Corporate Presentation

Q2 2026

Forward Looking Statements Disclaimer

- While we have taken steps to present accurate information, there may be changes in circumstances or assumptions not captured since its composition. Except for historical information presented in this slide show, any forward-looking statements involve risks and uncertainties. Forward-looking statements may be identified by the use of forward-looking terminology such as “may,” “can,” “will,” “could,” “should,” “project,” “expect,” “plan,” “predict,” “believe,” “estimate,” “aim,” “anticipate,” “intend,” “continue,” “potential,” “opportunity” or similar terms, variations of those terms or the negative of those terms or other variations of those terms or comparable words or expressions.
- These forward-looking statements are based on our current expectations, estimates and assumptions and are subject to certain risks and uncertainties that could cause actual results to differ materially from our current expectations, estimates and assumptions and such statements. We caution the reader or viewer that there can be no assurance that actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including, but not limited to, the risk factors discussed in the filings that Beam Global makes with the Securities and Exchange Commission, which you are urged to review for more information.
- We expressly disclaim any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions, or circumstances on which any such statements are based. The information presented does not present all information which a reader might consider material and is not an offer to sell or solicitation of an offer to buy any securities of Beam Global.
- Any offer and any representations relating to such offer will only be contained in final executed documents relating thereto. Unless specifically incorporated into such documents, this presentation and the information contained herein is not made a part thereof.

NASDAQ: BEEM

Company Snapshot

Sustainable technology innovation company.

220 employees globally, headquartered in San Diego, CA with operations in Yuma, AZ; Broadview, IL; Belgrade and Kraljevo, Serbia; and Abu Dhabi, UAE.

Made-in-America, patented products for transportation, energy security and smart city infrastructure.

Fastest deployed, most scalable, lowest TCO, most robust EV charging infrastructure products.

Beam is publicly traded on Nasdaq under the ticker BEEM. No debt. \$100M line of credit untapped.

NASDAQ: BEEM

EV ARC™

Instant, Off-Grid EV Charging

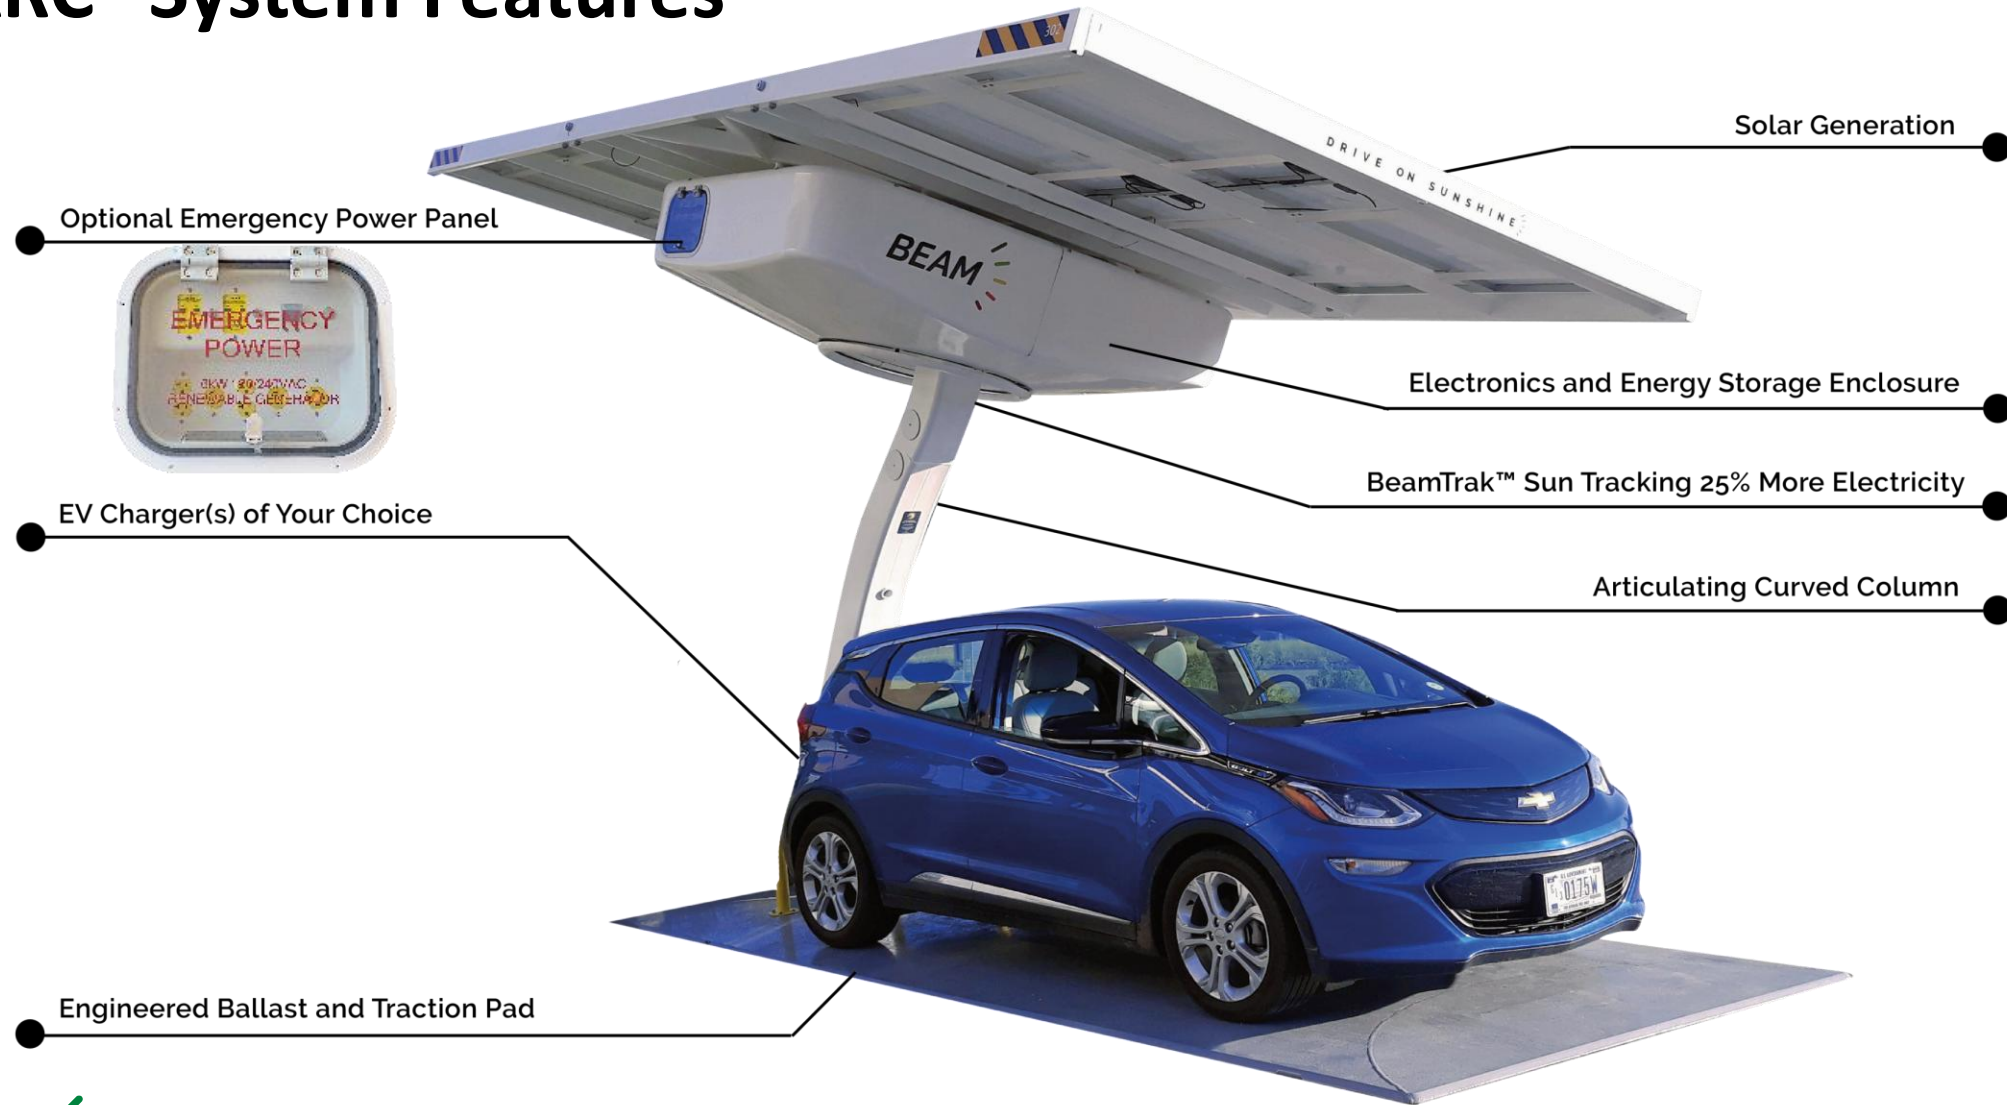

- No Construction, No Infrastructure Upgrades, No Utility Bill
- Delivered ~2-weeks from order + Charging EVs 2-hours after
- Patented and Proven – Deployed in field for 12+ years
- The EV charger brand and service of your choice
- Avoided costs = Lowest total cost of ownership (TCO)
- Off-grid EV charging and emergency power
- Onboard energy storage
- Permanent yet transportable
- ADA compliant EV charging and will not reduce available parking
- Hurricane tested – 160 MPH wind rating
- Flood proof up to 9.5'

NASDAQ: BEEM

EV ARC™ System Features

NASDAQ: BEEM

EV ARC™

Off-Grid Emergency Power

- Vital power when you need it most
- Charge during blackouts, utility outages, weather events
- Relocate to high-need locations like hospitals or shelters when required
- Wind-certified up to 160 mph (has survived 185mph)
- Flood-proof up to 9.5 feet
- Integrated emergency power panel
- Included in FEMA's Authorized Equipment List (AEL)*

** Beam Global EV ARC™ solar-powered charging stations are included in the FEMA Authorized Equipment List, under designation 10BC-00-SOLR Chargers.*

Beam Global EV ARC™ systems continue to provide essential power during hurricane Helene in 8ft of storm surge and 140 mph winds

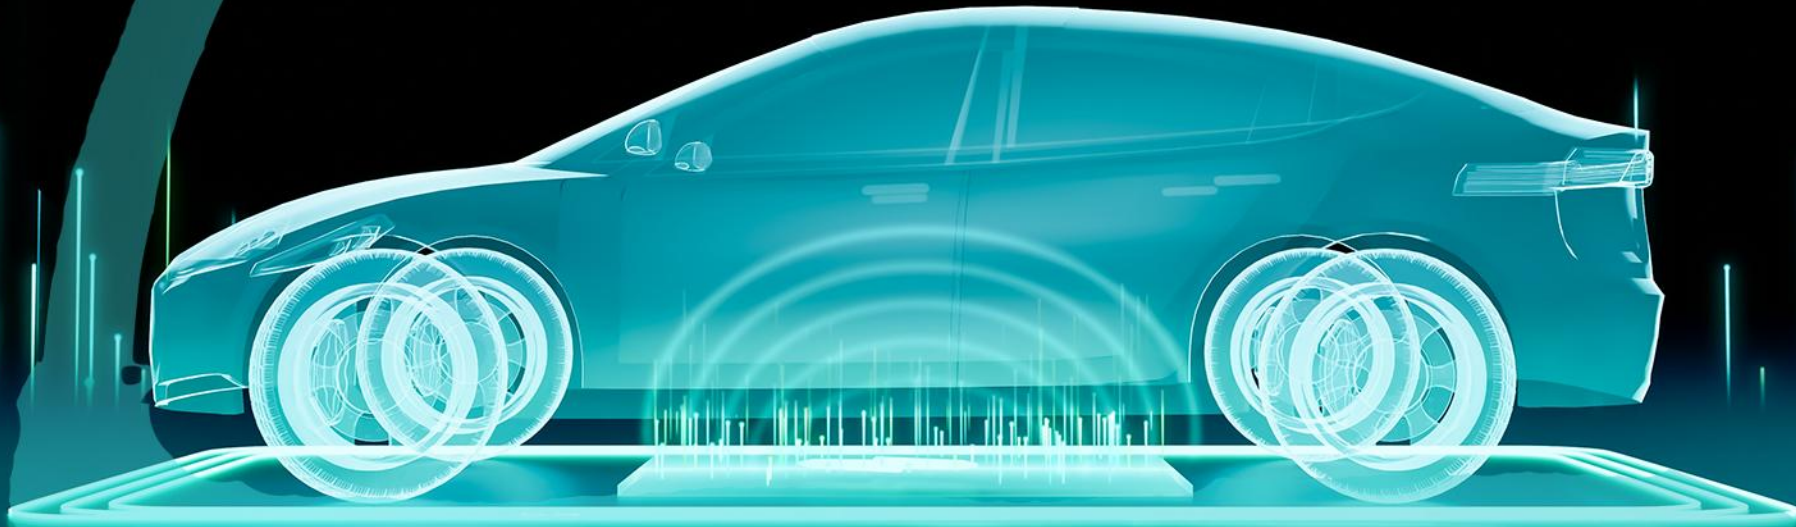

NASDAQ: BEEM

HEVO

Autonomous Wireless Charging for Autonomous Vehicles

A global market currently valued at \$4.44 trillion, with a CAGR of 32.3% projected from 2026-2034.

NASDAQ: BEEM

ARC Mobility™ Trailer

Deploys EV ARC™ in Minutes

- Specialized hydraulic transport system
- Drop-and-charge or relocate EV ARC™
- Remote control operated
- Highly robust - road and highway legal
- Solo operator
- Gooseneck or pintle towing option

[Watch the ARC Mobility™ Trailer in Action Here.](https://vimeo.com/789165491)

NASDAQ: BEEM

BeamBike™

Safe, Secure Charging for 12 eBikes User interface through BeamBike™ app

- Bundled with up to 12 e-Bikes
- Unlock, ride, lock and charge
- Friendly user interface through BeamBike™ app
- Tailored pricing for your specific application
- Advanced Admin controls
- Monitor usage and revenue
- No construction, no electrical work
- Remains functional through grid outages
- Onboard energy storage
- No utility costs
- Optional emergency power panel

Product Renderings

BeamSpot™

Streetlight replacement uses existing grid connection, solar and light wind generator.

- Patented
- Curbside charging
- No heavy construction
- No electrical upgrade
- Proprietary energy storage
- Networked and sun tracking
- No vulnerability to blackouts

NASDAQ: BEEM

BeamPatrol™

Law Enforcement e-Motorcycle Patrol Station for Safety and Security

- Available bundled with or without e-Motorcycles
- Fast, quiet stealth patrols
- No construction, no electrical work
- Charge during grid outages
- Clean reliable renewable energy
- Onboard energy storage
- Rapid deployment
- No utility costs

Product Renderings

BeamWell™

Fresh Water, Electricity, eMobility

- Off-grid solar desalination
- Safe renewable electricity
- Onboard energy storage
- 4 delivery eMopeds included
- Ideal for war zones and disaster areas
- Clean drinking water
- Self-contained
- Container transportable
- Rapid deployment / no construction

NASDAQ: BEEM

BeamSkoot™

Park, lock and charge up to 4 eMobility scooters.

- Available bundled with or without eMopeds
- No construction, No electrical work
- Rapid deployment
- Transportable so can be relocated if needed
- Charge with clean renewable energy
- Highly visible sustainability initiative
- Ideal for campuses, parking enforcement, rentals, resorts, and anywhere reliable scooters are required

NASDAQ: BEEM

Beam Global Smart City Products

- Sustainable public lighting
- Sensors and machine learning
- Power electronics
- Decorative lighting and smart park equipment
- Leading street lighting manufacturer

NASDAQ: BEEM

Custom American Made Batteries

GROUND MOBILITY

- Micro-mobility
- NEVs/light EVs
- Recreational and sport
- Auxiliary power units

AVIATION

- UAVs/drones
- Med-Large format UAVs
- eVTOL/fixed-wing
- Auxiliary power units

MARINE

- Recreational watercraft
- Commercial watercraft
- UUVs/USVs
- Auxiliary power units

INDUSTRIAL

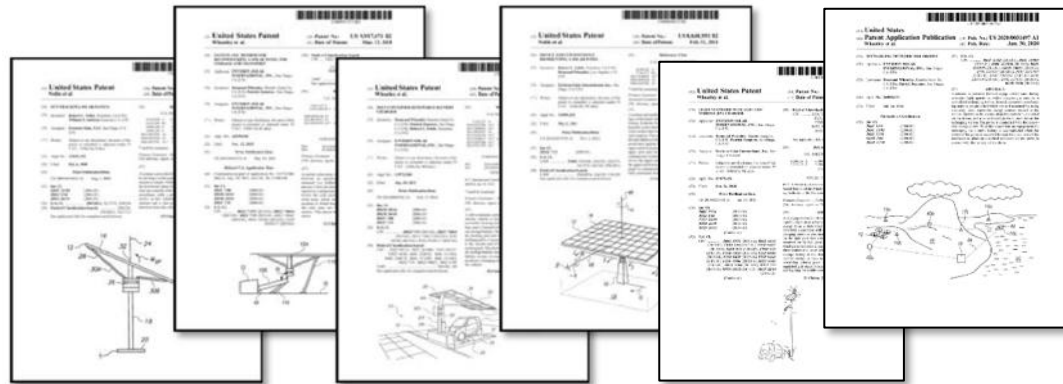

- AMRs, AGVs, Robotics
- Material handling
- Commercial equipment
- Stationary/grid storage
